1. Apologies.
2. "A Light in the Labyrinth: Dealing With the Practicalities of Facultative Reinsurance"

This is a continuation of the successful session in London past September. This will again deal with looking at how facultative reinsurance works in practice and the legal issues arising. The session will examine in detail the intricacies of getting facultative reinsurance in the London Market and other markets. What does the Slip mean? Do all the "strange" abbreviations contained in the Slip have any meaning? Is the Slip a contract to be followed by formal contract? What does "a scratch" mean? What are the contents of the Slip and their legal meanings – conditions, incorporation by reference, reinsurance clauses, law and jurisdiction; Endorsements, conflicts between the Slip and the Contract proper.

Introduction by: Colin Croly, Chairman of the RWG

Presentation by: John Pyall, Claims Unit, Munich Re – London.
